

## Hemp Seed Oil Microcapsule Powder

### What is Hemp Seed Oil Microcapsule Powder?

Hemp seed oil microcapsule powder is powdered hemp heart oil. It uses hemp heart oil as the main raw material, adds the appropriate amount of auxiliary materials, and is made by batching, stirring, filtering, shearing, homogenizing, microencapsulating, sterilizing, drying, sieving, compounding, and packaging. It can be used in various foods to increase nutritional value and heat, improve solubility and soaking properties, improve taste, and make products more delicious. Our oil powders are created from natural oils derived from hemp hearts. Our clients range from startups to big multinational corporations that use oil powders for capsules, pills, dried beverages, drink mixes, supplements, vitamins, emulsions, and more. we can help any business create oil powder products to stringent domestic or international specifications for the health, beauty, sports, and nutrition industries.

---
