

Organic Black Currant Powder

What is Organic Black Currant Powder?

Organic Black Currant Powder is meticulously prepared from 100% pure, organically grown whole black currants, including the skin and seeds. These berries are gently dried and finely milled to preserve their rich, dark purple color, characteristic tart-sweet flavor, and comprehensive nutritional profile. This includes dietary fiber, vitamins, and a broad spectrum of antioxidants.

We also supply Organic Black Currant Juice Powder, produced by extracting and then carefully drying the pure juice of organic black currants. This process concentrates the vibrant color, intense flavor, and especially the high levels of soluble antioxidants, such as anthocyanins, into a highly soluble and potent form. This makes it ideal for beverages and applications where rapid dissolution and concentrated benefit are paramount.

Each powder is produced with care to maintain the black currants' exceptional flavor, deep color, and inherent nutritional value, providing a versatile and clean-label ingredient for your formulations.

FAQs

Q: What is the main difference in application between Organic Black Currant Powder and Organic Black Currant Juice Powder?

A: **Organic Black Currant Powder** is ideal for applications where the whole fruit's components, including fiber and a broader range of nutrients, are desired for texture or nutritional bulk (e.g., baked goods, smoothie blends). **Organic Black Currant Juice Powder** is highly soluble and delivers a more concentrated burst of flavor and antioxidants, perfect for clear beverages, instant mixes, or where a smooth liquid solution is needed.

Q: Are your Organic Black Currant Powders suitable for vegan and gluten-free products?

A: Yes, both our **Organic Black Currant Powder** and **Organic Black Currant Juice Powder** are made from 100% organic black currants, making them inherently **vegan** and **gluten-free**. They contain no animal products or common allergens.

Q: What is the typical shelf life and recommended storage for bulk quantities?

A: Our **Organic Black Currant Powders** typically have a shelf life of **18-24 months** from the manufacturing date when stored in a cool, dry place, away from direct sunlight and moisture, in their original sealed, airtight packaging.

Q: Do these powders require any special handling due to their high antioxidant content?

A: To maintain the integrity of their sensitive anthocyanins and other antioxidants, it's recommended to store both powders in airtight containers away from light, heat, and moisture. Processing at lower temperatures during formulation can also help preserve their beneficial compounds.
