

Organic Green Prickly Ash

What is Organic Green Prickly Ash?

Organic Sichuan green pepper is suitable for growing in warm and moist fertile soil, cold resistance, drought resistance, and disease resistance. The ripening period of pepper fruit is greatly influenced by the variety, climate, and region. Branches grayish-brown, with short prickles. Leaflets elliptic or elliptic-lanceolate, margin serrulate, surface green, hairy, abaxially pale green. Green pepper can be planted in spring or autumn. Spring sowing is scheduled from mid-march to early April, and autumn sowing takes place before the soil is frozen. Seeds are harvested when seeds are fully mature, dried after harvesting, and seeds are removed after peel cracking. organic Sichuan green pepper comes from Sichuan, Gansu, and south regain of Shaanxi province, which has a very long history for the cultivation of Chinese prickly ash, as it has bright green color, big size, thick skin, ear-like shape, incredibly

aromatic and flavorful, so it also known as the "the king of Chinese prickly ash" with fragrance wafted miles away.

Key Features:

- **Digestive Health:** Supports healthy digestion by stimulating appetite and relieving indigestion.
- **Rich in Alkaloids:** Contains alkaloids such as berberine, which are beneficial for various health benefits.
- **Versatile Application**

Specification

Parameter	Specification
Product Name	Organic Green Prickly Ash
Appearance	Green, aromatic berries
Origin	China
Family	Rutaceae
Active Compounds	Hydroxy-alpha-sanshool
Flavor Profile	Spicy, slightly citrus
Uses	Culinary, traditional medicine
Non-GMO	Yes

Parameter	Specification
Purity	100%, no foreign material
Storage	Cool, dry area, away from direct light
Packing Size	25 kg PP/PE bag
Shelf Life	2 years from manufacturing date
MOQ	500 kg
Supplier	Weifang Manna Foods Co., Ltd.

Applications:

- **Traditional Herbal Medicine:**

- Supports healthy circulation and blood flow.
- Helps alleviate pain from joint or muscle discomfort.
- Promotes digestive health and alleviates indigestion.

- **Topical Use:**

- Can be used in skincare products to help with pain relief and to soothe inflammation.
- Often included in topical balms and creams for muscle and joint discomfort.

- **Dietary Supplements:**

- Can be encapsulated or added to powdered supplement blends for circulatory or digestive support.
